

LITE

THE HOERBIGER DIRECT CLASS

The HOERBIGER Direct Class for the first time provides the option to order HOERBIGER quality quickly, easily and directly — worldwide, around the clock, and at a remarkable price-performance ratio. HOERBIGER Lite is fast, simple, and always on the cutting edge.

RN valve

Best price-to-performance ratio
in air applications

- The valve is the heart of the compressor **directly affecting the compressor performance** and operation.
- The RN Valve is a steel plate type valve addressing air & industrial applications within clear defined operating conditions and thus the the ideal solution for cost-conscious customers looking for **genuine HOERBIGER products at the best available price**.
- Whether the compressor is ublicated or non-lubricated, the RN valve with its simple design, is a price-competitive plate type valve with **HOERBIGER quality and performance**.
- **High degree of standardization** reduces maintenance and storage costs.
- The RN valve uses **standardized components** taken from a range of valves which have been tried and tested over many years.
- With its **steel plate**, the valve is **robust** and optimally suited to high speeds, temperatures and also wide pressure ranges.
- **Proven HOERBIGER quality** in high precision manufacturing and **100% testing** ensures stringent sealing requirements and trouble free compressor operation.

**YOUR
EASY
WAY**

HOERBIGER
because performance counts

RN valve

The RN valve offers proven HOERBIGER valve technology at best available price using standardized components. The RN valve is a highly standardized product with competitive delivery time for new build and spare parts orders.

Air & Industrial

Compressor speed :	2000 rpm maximum
Capacity control:	On/Off
Lubrication:	lubricated, non-lubricated
Maximum pressure:	30 bar (small diameters up to 415 bar)
Temperature range:	-40° to +300°C
Valve type diameter:	19-214 mm

Suitable Industries

- Air & Industrial

Suitable applications

- PET bottle production
- Marine diesel engine starting air systems
- Breaking air for rail vehicles and trucks/lorries
- Pneumatic drill for gas and oil drilling
- Bulk transports

Post Sales Support

- 1 year warranty
- Back to factory support

HOERBIGER is active throughout the world as a leading player in the fields of compression technology, drive technology and hydraulics. In 2017, its 7,300 employees achieved sales of 1.173 billion euros. The HOERBIGER brand is synonymous with components and services providing high customer value in compressors, industrial engines and turbines, automotive drivetrains, and multifaceted mechanical engineering applications. HOERBIGER industrial safety and explosion mitigation solutions save lives and equipment. We set standards.
